

Would you like to boost your Dutch in a very short time, and do you think that it is time for something different? Then here is the plan!

- 1 Download a **free e-book Why You Hate Learning Dutch and 7 Secrets to Change It**. See if you like it. It will reveal many secrets and you will discover many new things! You can download it at www.talencoach.nl
- 2 Once you are curious, you can visit a **free workshop Finding Dutch Flow**, Opening the Flood Gate to Dutch Fluency. You will discover why it is perfectly normal not to speak any Dutch at all, the invisible thing that slows you down and how you can say so much more within only a couple of seconds.
- 3 And then, only if you are really excited you can decide to dive in and go for one of the most refreshing language experiences that you could ever have for Dutch! And of course, if you cannot wait, then feel free to skip the first two steps 😊
